

## Mall of Istanbul

### Istanbul, Turkey

#### Project Overview and Details

Mall of Istanbul composes of residences and offices and is expected to be the largest mixed-use project in Turkey. It also stands out as an eye-catching urban transformation project.

The Mall of Istanbul was designed as Istanbul's new lifestyle center. The total construction covers an area of 656,000 m<sup>2</sup>. The shopping center is planned to have a GLA of 153,963 m<sup>2</sup>, 11,558 m<sup>2</sup> of which will be allocated for an entertainment area for children, and 11,690 m<sup>2</sup> of which will be a snow park, a multiplex cinema and a conference hall/theater. 50% of the project is planned as shopping center, 40% as saleable housing area and 10% as office space.

#### Solution

Preferred Dynamic Balancing Valve solution for shopping mall heating and cooling systems is around 100 pcs of Frese ALPHA, OPTIMA, OPTIMA Compact and PV Series.
