

## Brandium Shopping Mall Istanbul, Turkey

### Project Overview and Details

Brandium Shopping Mall is not only an ordinary shopping center that provides your needs, but also a new living space that raises both the worth your flat and the surroundings and is also the new meeting point of Ataşehir.

Inside the four-storey shopping center which is founded on 120.000 sqm total area you can find 250 stores offering different types of products ranging from household textiles to cosmetics, electronics to clothings.

There are lots of services to colour your life including separate areas for cultural activities, amusement centers, that are designed for children and adolescents, restaurants that offer options from world cuisine to fast food, bowling alley, cinemas and theatre halls with which the center aims its visitors to have an experience that is far beyond shopping.

### Solution

Preferred Dynamic Balancing Valve solution for shopping mall heating and cooling systems is 110 pcs of Frese ALPHA Series.
